# Shrink Sleeve Seamer

## AccraSeam™

The AccraSeam™ shrink sleeve seamer is the fastest on the market and accurately seams material and holds industry lay-flat tolerances at 600 m/min (2,000 ft/min).

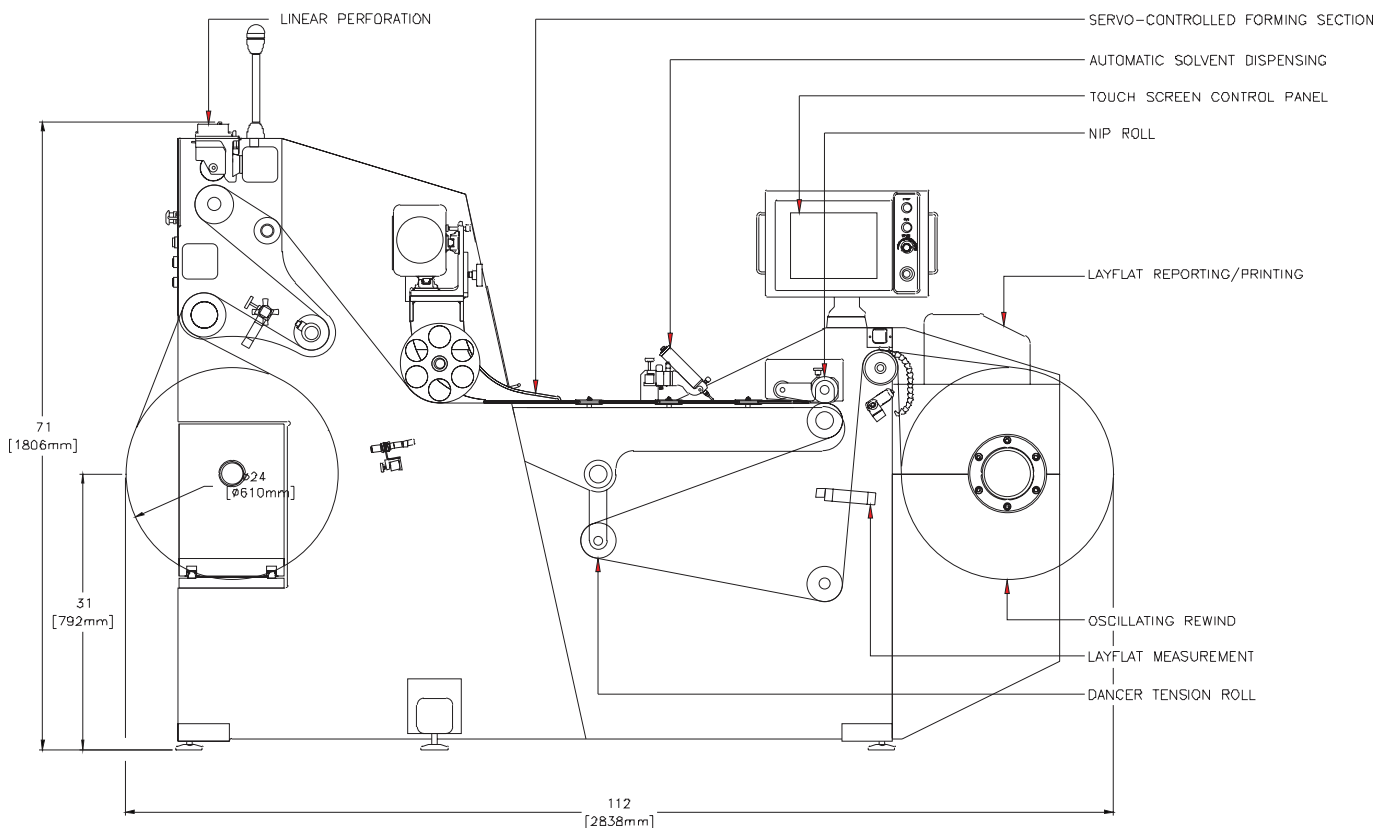

The AccraSeam™ is equipped with fully automated lay-flat adjustment, servo-based tool positioning, and a compact ergonomic frame with fully cantilevered design allowing for excellent operator access and the ability for quick change overs.

The operator control panel is user friendly and offers an onscreen manual; step-by-step lay-flat calculation wizard, calculator with unit conversion tool, and an auto purge and prime function on the solvent system.

The AccraSeam™ includes a lay-flat quality check system that provides on-machine printed reports for each roll.
