Doctor Machine®

Model 152 jr

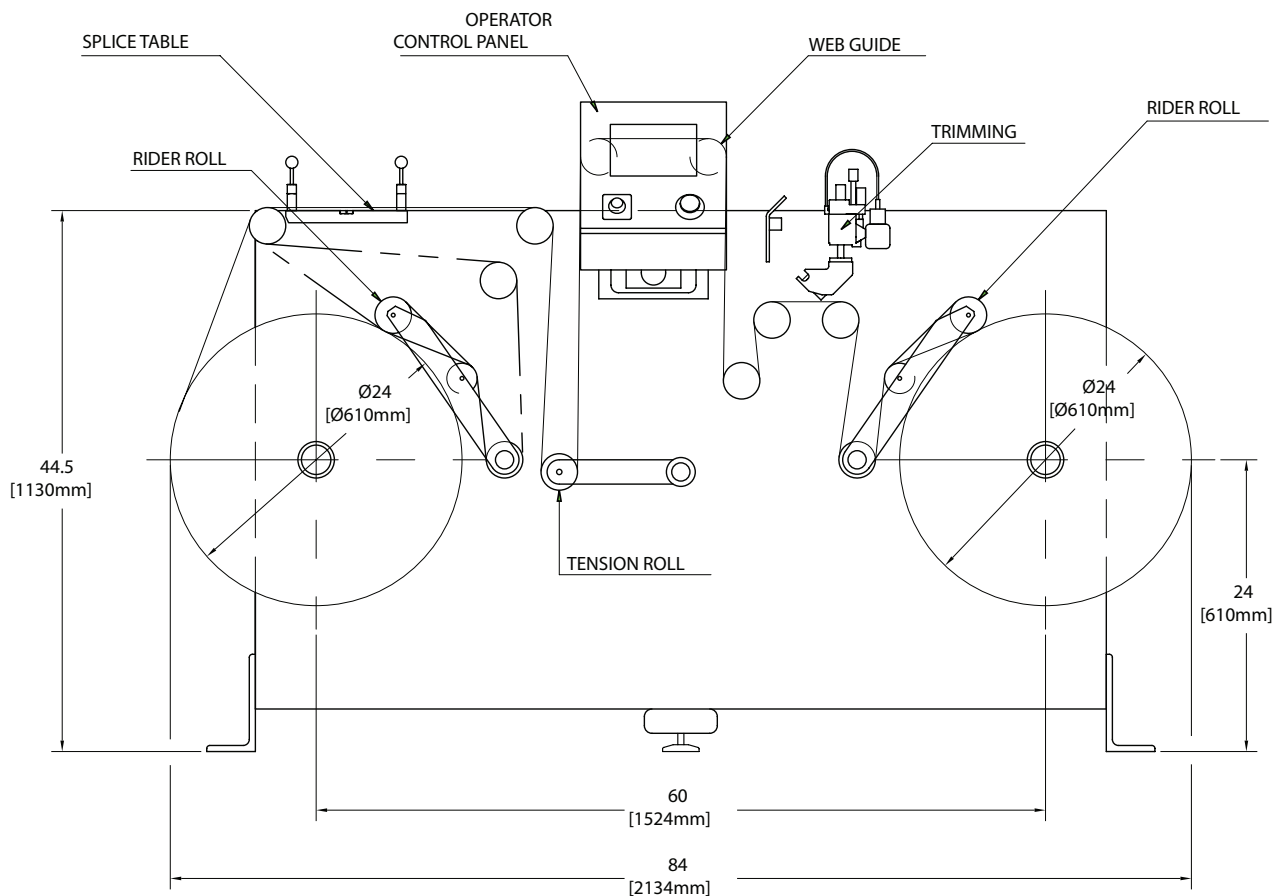

Designed specifically for the narrow-web market, the Model 152jr is capable of winding a wide range of products from light gauge extensible films to pressure sensitive label stock.

This reversible rewinder utilizes the latest in drive and control technology making it capable of a tension range from 1/4 to 1/2 PLI. The Model 152jr can be equipped with a range of label detection/inspection options capable of counting labels, identifying missing labels, and verifying all standard bar-code formats.

Accraply engineers the world's largest selection of Doctor Machines®, as well as a complete line of duplex differential slitter rewinders and shrink sleeve finishing equipment.
