# Slitter Rewinder

## Model 738

The Stanford Model 738 Slitter Rewinder is a cantilevered duplex differential center winder offering converters an affordable, easy to operate, compact solution to their slitting needs. The Model 738 is well suited for a wide range of products including polyethylene, polypropylene, polyester, film laminates, pressure sensitive label stock, paper and other flexible materials.

All Stanford slitter rewinders are proven performers with a robust construction that offers years of dependable service. Accraply will customize equipment to meet customer-specific requests.
