- Fully touch-screen operated
- Conveyor table with continuous or intermittent stacking
- Cross and linear perforation options
- Servo-controlled material feed
- Programmable ‘cut-to-length’ and ‘cut-to-sensor’ settings

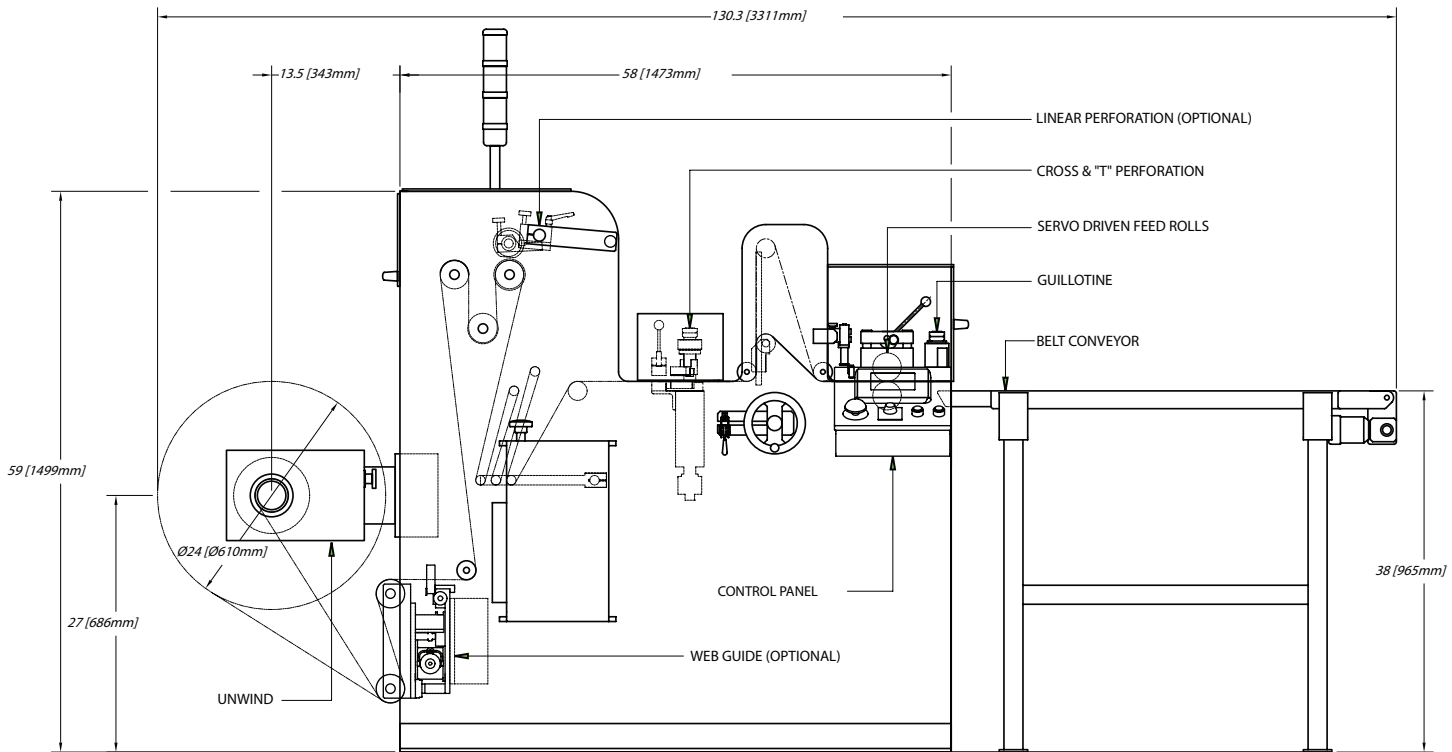

Sleevecutter

Model SC400

Designed specifically for the cutting/sheeting of shrink sleeve labels, the Model SC400 is designed for high-speed and low-waste finishing of shrink sleeves. With high-speed precision, the ability to perforate (linear, cross and shaped), and robust vibration-free construction, the Model SC400 embodies the reliability and performance for which Stanford is known.
