

# Stanford AccraSeam™ Shrink Sleeve Seamer

## Features

- Web speed up to 600 mpm [2,000 fpm]
- Fully automated layflat adjustment with precise servo-controlled movement
- Servo solvent dispense system precisely adjusts the flow of solvent during acceleration and deceleration
- Touch-of-a-button cleaning of the solvent system
- Forms and seals PVC, PET, PETG, OPS and PLA films
- Ultrasonic sleeve-width measuring device provides precise layflat monitoring
- On-machine layflat reporting and quality reports
- Intuitive touchscreen controls with unlimited recipes
- Internet based remote diagnostic with WiFi capability
- Turret-ready expansion ports on electrical cabinet

# Stanford AccraSeam™ Shrink Sleeve Seamer

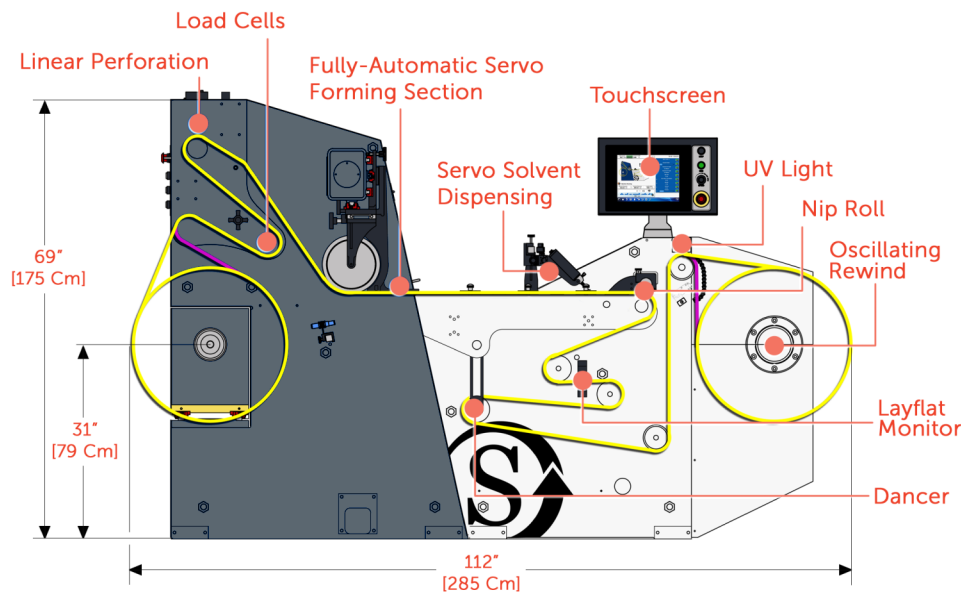

## The Most Advanced Shrink Sleeve Seamer in the World.

The AccraSeam™ is the fastest on the market and accurately seams material and holds industry lay-flat tolerances at 600 MPM [2,000 FPM].

The AccraSeam™ is equipped with fully automated layflat adjustment, servo-based tool positioning, and a compact ergonomic frame with fully cantilevered design allowing for excellent operator access and the ability for quick change overs. This reduces setup times to 15 minutes or less, saving time and valuable material.

An layflat quality check system that provides on-machine reports for each roll. We understand that a machine will only run as good as the operator can use it. All machine functions are integrated into a single, easy-to-use touchscreen.

Accraply engineers a large selection of Stanford Doctor Machines®, a complete line of duplex differential slitter rewinders and shrink sleeve finishing equipment, as well as customized equipment.

Minimum Layflat Width	50mm [2"]
Maximum Layflat Width	305 mm [12"]
Maximum Web Speed*	600 mpm [2,000 fpm]
Maximum Unwind Diameter	762 mm [30"]
Maximum Rewind Diameter	610 mm [24"]
Tension	0.26 Kg/Cm [1.5 PLI]
Total Minimum Tension	1.7 Kgf [3.75 lbf]
Shaft Options	76.2 mm, 127 mm, 152 mm [3", 5", 6"]
Solvent Options	Table Needle [Standard] Table Wick Rear Needle
Machine Options	17-25 mm Fixed Kit 25-50 mm Adjustable Kit Automatic Flagging UV Detection

## Accraply's Gold Standard of Service

"We commit to deliver the highest level of customer care driven by our passion to provide the best customer experience in everything we do."
